

HOFFMAN'S GUN CENTER

PISTOL PERMIT COURSE

Thank you for your interest in taking the Pistol Safety Course at Hoffman's Gun Center. Here at Hoffman's we have an interest in turning out capable, qualified, and safe students. In the interest of these goals, we would like to outline some of the training and give you some information about the demands of the course. This course consists of six hours of classroom training involving safe gun handling, legal issues, and basic firearms discussion. The classroom portion includes a 50 question written test. The range portion includes live fire of pistols and revolvers, safe gun handling, & introductory target and defense training.

When handling of firearms is required in any class, SAFETY is the priority. On this issue, strict observance of safety rules and practices will be enforced. Firearms safety and handling will be discussed at length during the classroom portion of the instruction. When you get to the live fire stage of training, warnings will be given for safety violations. Because of the inherent danger involved with a mixed group of students handling firearms, repeated violations of the basic safety rules will result in the student failing the course.

If you find the above issues intimidating, don't. You will be told about these and other safety rules over and over before you ever get to the live fire portion of the program. We are here to educate you on proper and safe gun handling. If you are new to shooting, or have limited experience with gun handling, don't worry. Together we can make your experience with us safe, fun, and informative.

Two day class Mondays & Wednesdays 5pm – 9pm
One day class Thursdays: 11am – 6pm Co-ed & Ladies Only

COST \$150.00 \$50.00 DOWN DUE AT SIGN UP (NON REFUNDABLE)
